## VENUE

Seoul is the capital city of Korea and the political, cultural, commercial and financial center. Seoul is also a historic city – the ancient capital of the Joseon Dynasty (1392-1910) for 500 years, with many tourist attractions, including old palaces and gardens. In Seoul, the past and the present meet together and coexist in harmony. From ancient palaces with centuries of history to high-tech skyscrapers of steel and glass, from ancient texts dating back millennia to the highest rate of broadband Internet access in the world. With one foot in the past and another in the future, Seoul is a city that never ceases to amaze.

By participating in the IPS-18, you will be able to enjoy both the flavor of traditional Korean Culture and the excitement of a sprawling metropolitan city with a population of 10 million.

Seoul is also the center of the “Korean Wave” sweeping Asia. As Korean dramas, film and music reach a wider audience abroad, more and more visitors are coming to Seoul to experience first-hand the city’s rich culture and make use of its extensive cultural facilities.

We welcome you to the wonderful city. See you in Seoul!
